Solution:
Proofpoint Email Protection

SECURITY CHALLENGE

- Legacy email security system not providing sufficient protection
- Need an easy-to-use and flexible solution to support future growth
- Need no-hassle procurement and seamless transition to new solution

KEY RESULTS

- Conducted demos and proof-of-concept assessments
- Assisted in developing business case, ROI for recommended solution
- Provisioned and secured preferred pricing for software licenses
- Best-of-breed email security solution and support enabled quick response and improved defenses against potentially devastating security breaches

BUSINESS BENEFITS

Email Security Needs Assessment & Licensing

- ISA Cybersecurity leveraged extensive experience in the education sector, and deep knowledge of email security to accelerate a needs assessment and proposal.
- Evaluated pros and cons, investment, and ROI of potential solution.
- ISA Cybersecurity executed proof-of-concept evaluation of proposed solution.
- Confirmed licensing requirements for Proofpoint Email Protection to help block both known and unknown email threats for a diverse and widely distributed user community.
- Seamless ordering and licensing process, delivering preferred pricing.

Improved Security Maturity & Governance

- Client now enjoys best-of-breed email protection at a time when educational facilities are under unprecedented cyber attack.
- Client has confidence in a specialized solution that is a best fit with their current requirements – and will be available and sustainable as the board continues to grow.
- Demonstrable success at alerting and defending against serious cybersecurity threats that caused outages at other institutions and industries.
- Well-positioned to leverage more advanced threat protection tools when the time is right.
