

On Demand Consulting Services

The world of cybersecurity is demanding. A new cyber threat, a change in business direction, a resource departure: sometimes unexpected challenges arise that you and your team cannot manage without assistance.

Enter ISA Cybersecurity. Our innovative On Demand Consulting Services (ODCS) can provide the skilled resources you need to bridge the gap, quickly and reliably.

YOUR CHALLENGES, OUR SOLUTIONS

- **Address resource gaps** – We deliver expert resources to provide short-term replacements for skills or personnel gaps. Absence due to parental leave, illness, promotion, or unplanned staff departure? We can help!
- **Enable tech transitions** – Our experts can provide the skills and resources to help you retire legacy technologies and move to new platforms without over-stretching your existing team.
- **Keep the lights on** – ODCS can provide operational resources to keep the business running smoothly, freeing up your internal resources to be re-deployed to more strategic or transformational initiatives.
- **Manage business changes** – Facing a merger, experiencing unexpected growth or a seasonal spike in demand? We can help you deal with those short-term, peak periods.
- **Navigate uncharted waters** – Evaluating new tech or running a pilot project or proof-of-concept? Considering a new cybersecurity position or virtual CISO role? ODCS lets you evaluate and “try before you buy” with no long-term commitments.
- **Break free of time and budget constraints** – Don’t have the resources to recruit for a special project? ODCS gives you rapid access to highly skilled cybersecurity consultants who can get the job done quickly and cost-effectively.

THE ISA CYBERSECURITY DIFFERENCE

Our On Demand Consulting Services focus on a simple premise: to provide you skilled resources that are expertly vetted and selected to meet your specific requirements and timeframe.

DEDICATED TEAM

Our project team understands the complexities of sourcing, validating, and supporting skilled consultants. We work with you to develop and execute a resourcing plan to engage the right resources at the right time.

SIMPLE ENGAGEMENT MODEL

We make it easy to work with us. We offer simple engagement terms, and competitive pricing based on your requirements. You consume the resources in the manner that best suits your needs and budget.

RESOURCE SUPPORT

Each consultant is supported by our network of experts to provide an unparalleled depth of knowledge and additional expertise. We stay connected throughout the engagement to ensure the consultant is delivering value and meeting your expectations.

SKILL VALIDATION

With decades of experience in the cybersecurity field, we have developed a comprehensive network of experts across a variety of security disciplines and technologies. We don't simply search a resume database to find a skill match. We validate skills, industry knowledge, and professional experience to identify the best candidate for your needs.

ABOUT ISA CYBERSECURITY

At ISA Cybersecurity, our mission is to help our customers achieve their privacy and security goals, and to be proactive in the fight against security threats. ISA Cybersecurity is Canada's leading cybersecurity-focused solutions and services provider, with nearly **three decades of experience** delivering cybersecurity services and people you can trust.
